

## A Year in Review

What a great year we had, starting the spring cleanup performed by our landscape committee and volunteers. The annual spring clean up involved removing dead bushes and replacing them with new bushes, splitting and transplanting Hostas and finally planting our flowers. All in a fresh layer of dirt. Well done, our entrances looked great. We had landscaping company, "Set in Stone", mulch the entrances and around the islands in the cul-de-sacs. Next spring we plan to have mulch around the trees in the common areas.

We hired a new landscape company to mow the commons next summer and to do snow removal this winter. They were already put to work the first Sunday morning of December.

The Social Committee had a successful Summer Kick-off party with food, drinks and games for the kids. Good idea bringing the fire engine in for the kids to climb on and learn about our local firefighters. We had a big turn out with our annual Halloween Parade. The kids enjoyed train rides from Dan Dan the Choo Choo Man. Great job Social Committee.

Just a few reminders:

- Please don't place your trash out more than 24 hours prior to trash pick up, this includes seasonal yard waste.
- As homeowners, we have 24 hours to remove the snow along the sidewalks. Please be considerate and keep the sidewalk clear of any obstructions.
- Also, the city of Wixom plows our streets when the snow reaches 2 inches. If you are parked in the street the driver will blow his horn at all hours of the morning. If the plow does any damage to your lawn, you can call the Department of Public Works at 248-624-0141 and ask for Mike. Any reported damages will be taken care of in the spring. You can also pick up plow sticks from the office to place along the curb.

Visit our website for information regarding bylaws and events in our subdivision and in Wixom. You can contact the board at [tollhoa@hotmail.com](mailto:tollhoa@hotmail.com)

Thank you and have a wonderful Holiday Season,

Willem, President
